Richard Willis

Area Manager

I joined HUBER Technology in 2001 and have had the opportunity to work both in the head office and remotely. I have been in my current position for 12 years as one of the Area Managers responsible for visiting both clients and sites to enable us to find solutions for them using our products and services. The support received from within the company and its team culture make it a really enjoyable place to work and allow me to be successful in my position.
