HUBER is among Bavaria's 'Best 50'

30.07.2014

The Bavarian State Ministry of Economic Affairs and Media, Energy and Technology has again announced the 50 strongest growing medium-sized companies for this year. The Bavarian environmental company HUBER SE is one of them.

Companies who want to make it to the top 50 must have achieved an above average increase in their number of employees and turnover in the past years.

Bavarian Economics Minister Ilse Aigner pointed out that the "Bavarian economy could never be as dynamic and innovative as it is without the outstanding performance of Bavaria's medium-sized companies. Nearly 40% of the total turnover subject to tax in Bavaria are generated by small and medium-sized companies, they provide new jobs and guarantee the high living standard we enjoy in Bavaria", she said.

CEO Georg Huber was handed over the award in the Munich Residenz on 29 July 2014 and was happy and proud to be honoured in this way: "It is a special honour to belong to the best in the best German Federal Land, an honour all our employees can be very proud of. The prize is acknowledgement that we are on the right way with our products and solutions for the water and wastewater treatment sector."
