Kieran Hagan

Regional Field Manager, Ireland

I've worked for HUBER UK since 2007, starting as a Commissioning Technician working remotely. I have had the opportunity to progress to the position of Regional Field Manager. My role involves many aspects as the regional team operates across both Northern Ireland & Republic of Ireland, supporting the sale of new equipment as well as providing full aftersales service for all HUBER assets. Working for HUBER as a leader within the environmental industry has and continues to be rewarding, where everyone is part of the development of new solutions and contributes to continuous improvement.
