HUBER Technology at the REA Organics 2022

03.03.2022

HUBER Technology are exhibiting at the REA Organics 2022 Conference taking place on 31st March 2022 at the Macdonald Berystede Hotel, Ascot.

Our team look forward to meeting new and existing customers to discuss how HUBER products can enhance your AD process. With the recent change to food waste collection requirements in the Environmental Act, and a new Green Heat Network Fund worth £270m opening in April 2022, AD site operators are looking to optimise existing sites ready for these changes by local councils coming into force from 2023.

When introduced, the changes will see food waste collected separately from all households, businesses and organisations, with Defra committing to eliminating food waste from landfill by 2030 and working closely with local authorities to end confusion over household recycling and ensure food waste is routinely collected from all premises across the country.

At this exhibition, we will be focusing on:

- Feedstock grit removal and washing using the HUBER Longitudinal Grit Trap ROTAMAT® Ro6 and HUBER Grit Washer RoSF G4E
- Digestate screening – using the HUBER Sludgcleaner STRAINPRESS®
- Packaging compaction using the HUBER Screenings Wash Press WAP® and HUBER Screenings Compactor Ro7
- Digestate Dewatering using the HUBER Q-PRESS®
- Safe Access Solutions using the HUBER TT7- Pressure Tight Doors

HUBER Technology have proven solutions, and customers will have the opportunity to meet Richard Willis, our experienced Industrial Manager, and Tom Willis, our Safe Access Solutions Manager, to find out where and how we can help you run your plant more efficiently. We are excited to support our customers with the development of new plants, and are keen to be involved in the early stages of planning to ensure all areas of the process and safe access solutions are considered. We also have a range equipment available for trial and hire.

For more information, contact Richard Willis – Richard.Willishuber.co.uk - 07880 316060 and Tom Willis – Tom.Willishuber.co.uk – 07568427962
