Hire and Trial Units

As part of HUBER Technology's commitment to serving our customers, we offer an extensive selection of waste water treatment machines for short or long term hire and trials.

They can be installed into service rapidly and ensure that your site is kept at full working capacity.

All our machines are supplied ready to go with control panels and level controls which will fit easily into your existing processes and we offer support throughout the hire period.

- [Hire units](#)
- [Trial units](#)

Our Hire fleet can prove to be a valuable resource when:

- Part of your works is being refurbished and you require a temporary solution
- Additional support is required
- You experience an operational problem
- You need to supplement existing processing capacity

Please click through to the Hire units page which contains more in depth information on each machine or if you would like to discuss an enquiry please contact Kevin Benson, [✉ kebhuber.co.uk](mailto:kebhuber.co.uk) or [☎ 07802 459307](tel:07802459307).
